CLOSING

Of One of The Most Notable Legislatures in Kentucky's History.

Of The More Than Five Hundred Bills Introduced Not More Than

FORTY WILL BECOME LAWS.

Senator Jolly Saya He le Not grese.

presentativa Hasweii, of Breckenridge when he ettempled to brirg np the hi lest Friday sonnded its death knell. I was dropped he k in the orders of the day and stands no more show of passin than I stand of heing siected Presiden of the Bn grown chember of Commerce

of the Bin grown chember of Commerce.

The new priess examination will meet about Wednesday to eised a full set of officers who will take the places of the Republicans now in ctarge, if the bid-passes master and in not designed uncestimations, a thing the D mocrets say is impossible. The commission will present the sames of the officers to the elikility fund commission on sat will be refused recognition for them. Then the mandama proceedings for possession of the places will be began by the Democratic commissioners. The present encoundenders are said to be resely to resist any attempt at neutration until the law directs them to step down and out.

The Re-publicans maintain that EA

law directs them to step down and ons. The Republican maintain that Ed Finnell, one of the Commissioners, cannot serve because elecied by the Legislature to an office termed in the constitution a minor Legislature, office, to which the Legislature cannot elect exceeding from years. Jim Richardson, of Glasgow, was given the four year term. Ex. Chief Justice Proyr and Judge Holt, will represent that salaking find in the I tigation over the matter.

Representative Saunders, of Union

gress.

But Like all Patriclic Republicase He is in the Heads of Mis Friende.

Friende.

THE ELECTION COMMISSIONERS NAMED, This process of the same prison, celled down. The Rev. Alvin Bertram le a tip of the control of the control

is an offerance enough to march under the idody shirt and high protection bauner, I am at least hoeset enough to accord honor to whom honor is due.

County Attorney B. N. Miller, of Brecksurdige, was in town is at weak, the guest of Senator Jolly. He came to see the eighth, what the learn wakers and put in some good work emong the Esphalicans in his rece for the nominal tion for Attorney General. In securing the support of "Bob" Jolly, he, Mr. Miller has won a decided advantage to workspiping he tilthen. Senator Jolly, he plant art on, for the Irving som miller anatom worthspiping he tilthen. Senator Jolly are he is going to be in the forefront of the R-publicans state convention and will land Mullar's unmination or know the reason why.

If the Democrate will "quit their foolide," as an Jones may, "the deep laid plans of the Rule will fall shattered to the ground." The Democrate can always be depended on to get mixed up in some nort of nun-cessary factional significant and the senator of the ground." bosh.

BRECK MARIDGE county is a large producer of raw materials. What sie needs now is an element that can take these raw materials and convert them into the finished product. The states south of us are fast catching on to this idea. They are building cotton mills to manufacture their cotton, inc. furnees in functors. They are ballding cotton mills to mans facture their cotton, iron furnaces to ntills, their iron ore and why not Kentneky and Breekenridge county have to breco manufactories, planing mills and pork houses. The idea is to not let a pound of the raw material go out in its raw state. This titing is done in other states, why not here is Ken-tucky—in Breekenridge county.

Tha J. C. Ayer Co., of Lowell, Mass, proprietors of the well known and popular Ayer's remedien celebrated their filleth birthday recently. It was a "Jubile of Ayer's Sarasparilla, fitty years of cures." The gathering was a notable one and a rather remarkable one in the birtery of a proprietory. Where The Fat Comas From.

Where The Fat Comas From.

Chamically considered, fats of silkinds fatscheeped (chamad lagging)

Chamically considered, fats of silkinds fatsche, local and vegatish is fiber, are only so many different forms of exrbon. It has been supposed by old-time scientists that the different form waves mosely not interchanguable. But modern interchanguable. But modern cleans the same control of the contr

the fat of fattened animals, as well as the hatter mad a from the milk of core, were all derived from food which, so far accould be seen, had no fat, but only starch or other forms of carbo-hydrates in its composition.

At last the scientists have been obliged to conseed that the conclusions arrived at by the hard practical common sense of farmers were correct. The New York State Experiment Station at Geneva, has been conducting a series of experiments of armers were correct. The New York State Experiment Station as Geneva has been conducting a series of experiments in fattening cuttle or corn meal, from which all the oils that exists as oil in this grain were removed. Every particle of food given was weighed, as well as accretions, which were analysed to show their chemical character. It was found that the proteid compounds were very largely excreted from the system, though there was some gain in flash from this source. The greater part of the gain was in the increased amount of fat on all parts of the body. This was that conclusively shown to be the product of the starchy carrie-bydrates that were wasten by the cown, and by them ever each to byte cown, and by them ever each to be the cover of the starchy carried by the cover of the starchy carried by the cover of the starchy carried to the starchy carried t

WEDNESDAY, MARCH 16, 189

RIRK

Mr Editor, I wish to answer an article written by (M. W. T.) from Ephenen.

M. W. T. any site object to olearn. My friend I am in the same boat, and an giad I hav a found some one who is as wise as yon, perhaps I can learn something. You say I failed to any why silver is not worth \$1.20 per onnes now, and then go not easy, that I say that the snapending of the coinage of aliver thing the state of the snapending of the coinage of aliver and the snapending of the coinage of aliver and the snapending of the coinage of aliver the snapending of the coinage of aliver and the snapending of the coinage of aliver and the snapending of the coinage of aliver and the snapending of the coinage of the softh gold and silver as use associated and independent of lawel for indications and adependent of lawel is indications and adependent of lawel is indications and adependent of lawel is indications and in the lawel in the lawe that. There was a hill before the house for commitme to revise the coinsee laws, but the bill that demonated silvar was passed June 12, 1873, at midnight when nearly all of the Senators had gone homs. For proof of this statement, I rafer yon to James G. Blains, who was a Senator at that time and who says be never how the full extent of the bill. The statement of the bill of of the bil

would have signed It." Senator James B. Beck was there all the time and asys he never heard of it.
Yon say that I am mistaken about the act of 1873, that demonstrated aliver being acrima. Is it is crime to stace lone-half of the money of our people." Is it a crime to increase the purchasing power of the remaining half thereby reducing the property of the remaining half thereby reducing the property of the prope ver and paper money at par with

ailver and paper money at par with gold.
Yon say, "there was a time when the gold dollar was worth \$2.50 lo green-backs. I deny your slatement. There was a time when the simpletons and fools got afraid that greenbacks would depreciate and did as you say, sold their greenbacks a you say, sold their greenbacks are was were worth their face value except with the above named fools and now Mr. M. W. T. I will sak you some questions. Why do you advocate a gold slandard instead of both a gold and aliver standard? Also tell me what you think makes greenbacks and aliver at a parity with gold?

LAWS TOUCHING BELLIGERENTS.

of the Results If We Rec e Belligarency of the Cui Republic.

New York See,]

Though this nation has not outflied its policy in regard to Unba, the Maise incident saids, there is a bailed more or less general that the first step to be taken would be the submission to Congress of all the facts in the possession of the third of the control of the contro

and the factor in the possession of the Administration in relation to the revolution and possibly are recommended to that the beligerency of the Cuban republic should be recognized.

There is more difference of opinion about what the recognized of the interpretation of the beligerency of the leasurgents means and argive to them than about any other question now under discussion. Here, third if yeld, it what the accepted books on international law way about it:

A naniral nation shall not be beligerent. It shall not any munitions of war of any warships of the beligerent it shall not all to it any munitions of war of the property of the first policy of the fir service as a solider without lavolving the Government of his country in gailt."

Snow, acother great authority, says: As to the munitions of war an application of the inserver in sevens logical. The following quotations from Thomas Jeffarson gives the past and present practice of this nation as to individuals. "Our cities of the matter of the matter

emics "
So, it would seem, the insurgents
would have the right to purchase hara
all manner of musitions of war and ship
them subj et only to the risk of capture
by the Spanish.

The recognition of beligerency would also give to Spain and to Cuba, if it get a navy, the right to hold up American ships whenever they meet them an earch them for atticles contraband of war, and if those articles are destined. war, and if those articles are destined for the use of the enemy to the ship holding them up, that ship has a right to conficate the articles and any other things in the ships cargo that may be-long to the consiguor of the munitions of war.
